

## 2021 Pharmacy benefit information

The Adventist Health Employee Health Plan (the plan) has partnered with OptumRx to provide prescription medication coverage. This document contains specific coverage and exclusion information about your prescription benefit.

### Formulary

The plan uses the OptumRx Premium Select Standard Formulary. You can search for the formulary status of your medications using the OptumRx app or online at OptumRx.com. A copy of the formulary is also posted online at [AdventistHealth.org/EmployeeHealthPlan](http://AdventistHealth.org/EmployeeHealthPlan).

### Adventist Health in-house pharmacies

Pay the lowest co-pays using the outpatient pharmacy at your hospital. Get a 90-day fill and save a month's co-pay!

- Available at Adventist Health Delano, Adventist Health Feather River, Adventist Health Howard Memorial, Adventist Health Glendale, Adventist Health Lodi Memorial, Adventist Health Portland, Adventist Health Roseville, Adventist Health Sonora, and Adventist Health St. Helena.

### Community partner and OptumRx home delivery pharmacies

If unable to access one of Adventist Health's in-house pharmacies, filling your prescriptions using OptumRx home delivery or a community partner pharmacy will provide the greatest savings. As with our in-house pharmacies, you may fill up to a 90-day supply of your medicines. To start home delivery, log in to OptumRX.com, use the OptumRx app or call 1-866-534-7205. A list of community partner pharmacies is available online at [AdventistHealth.org/EmployeeHealthPlan](http://AdventistHealth.org/EmployeeHealthPlan).

### OptumRx retail network

Prescriptions filled at retail pharmacies are limited to a maximum of 30 days per fill.

### Mail Service Member Select

Your plan includes a medication home delivery program called Mail Service Member Select. If you are using a medication for longer than two months and filling it at a retail pharmacy, you may receive a notification from OptumRx asking that you switch to home delivery through the OptumRx mail-order pharmacy. **Important: While you are not required to switch to home delivery, you MUST respond to the notice. If you fail to do so your claims will be rejected at the pharmacy.** Opting out is not required when using Adventist Health in-house or community partner pharmacies.

### Clinical programs

Your plan may require one or more of the following before you can fill your prescription:

- Prior Authorization - Your plan's permission to get a medication
- Step therapy - Trying one medication before another
- Quantity limits - Allowing a certain amount of medication to be dispensed

The clinical programs are administered by OptumRx. To perform a clinical program review, your prescriber can contact OptumRx at 1-800-626-0072.

### Zero-dollar co-pay program

Plan members pay a \$0 co-pay for generic maintenance medications used to treat asthma, depression, diabetes, heart disease/high blood pressure, and high cholesterol. Tier Two (preferred brand) vial insulins and blood glucose testing supplies are also included. The \$0 co-pay program is only available at in-house, community partner and home delivery pharmacies.

### Specialty pharmacy

All specialty medications are limited to a 30-day supply. Specialty medications can be filled at Optum Specialty Pharmacy (formerly BriovaRx) or at in-house or community partner pharmacies. To learn more about Optum Specialty Pharmacy, call 1-855-4Briova (1-855-427-4682) or visit BriovaRx.com. Please refer to the OptumRx formulary, available at OptumRx.com or on the OptumRx app, to identify if your medication is considered a specialty medication.

### Compounded medication

Most compounded medications are available commercially and therefore will be excluded under the plan. When covered, compounded medications are subject to plan coverage rules, including formulary restraints and clinical rules. Compounds are subject to a \$300 per claim maximum. The list of contracted compounding pharmacies is updated weekly so contact OptumRx at 1-866-534-7205 for help finding a compounding pharmacy.

### Excluded medications

Here are some examples of products that are not covered by your benefit: cosmetic medications, hair growth agents, homeopathic medications, fertility agents, vitamins, fluoride products, over-the-counter (OTC) medications, OTC equivalents, medical foods and non-FDA approved medications.
